MAKER SPOTLIGHT

T A N A K A

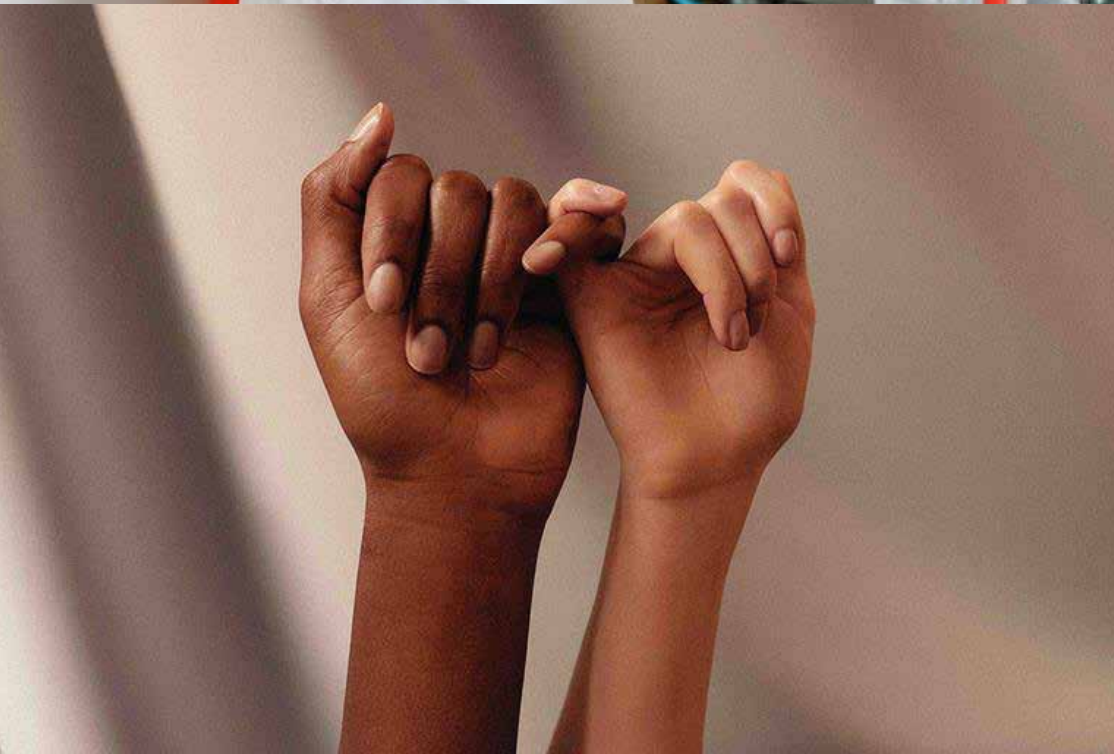

“Benefit skin health and boost well-being.”

Founded in 2019 by Leonara Manyangadze, TANAKA is a handmade soap brand. Tanaka (n.) [tah-nah-kah] is a Zimbabwean Shona name, meaning we are good, and it is this sentiment that guides our mission. We make bars of soap to benefit skin health and boost well-being and, in doing so, rid the world of plastic waste.

Each bar is made, cured and packaged in London with intention and care. Our soap is made in small batches using the cold-processed method and is left to cure for 6 weeks, prior to dispatch. Our bars are wrapped in semi-transparent glassine paper (non-toxic, plastic-free, compostable) and sealed with a sticker made from FSC-approved paper.

Our Promise

**Kind to all skin types. 100% natural ingredients. Cruelty-free and vegan.
No SLS. No parabens. No synthetics. No palm oil.**

MAKER SPOTLIGHT

MITZIE

“Buy one, refill for life.”

You can't beat that feeling of a freshly cleaned home. It's often thought that cleaning is good for the mind so why should that be at the expense of the health of your body. Mitzie strives to make the cleaning world kinder to you and the environment. Our products are completely plant based and free from harsh chemicals.

Mitzie's products are hand made in London where we blend our organic recipe and seal it in amber glass bottles. Our organic plant powered surface concentrate allows you to refill your 500ml spray bottle time and time again.

We choose to use glass bottles as we are dedicated to reducing plastic production and waste. Our lovely amber bottles are recyclable and work to protect the contents of the product by reducing the amount of light that reaches the ingredients, eliminating the need for any nasty preservatives.

Autumnal wreath making with Florette Flowers

Thursday 15th Oct & Thursday 22nd Oct
£65

(inc. Glass of bubbles)

68 Duke Street, Mayfair, London

In this workshop, you will learn a little about how to forage and harvest your own dried flowers and foliage.

Using a 12inch rattan wreath base, and a range of dried flowers, wheats and autumnal foliage, Claire will show you how to create your own modern wreath to welcome in all the best moments of fall.

To hang your wonderful creation, you will be provided with beautiful hand dyed silk ribbon. This wreath is the gift that keeps on living and giving, and you will be able to recycle this wreath, using what you've learnt to update with winter evergreen foliage to create your own Christmas wreath at home.
